QUICK START GUIDE

Welcome to the Polaris Remote Control Quick Start Guide. To start using your remote control right away, just follow the steps below.

Note: This Quick Start Guide assumes your Polaris Remote Control has battery power. If your remote control does not have power, please refer to the section, See “Installing Batteries” on page 11.

Your Polaris Remote Control preprogrammed to control and operate the Star Choice satellite receiver and was designed for comfort, convenience, and simplicity. Use the **TV** and **SAT** keys to turn the power on and off for your television and satellite receiver. The **Volume** and **Mute** keys are locked to control your TV’s volume, and all other functions control your satellite receiver.

PROGRAM CONTROL OF YOUR TELEVISION

You can control your television and your satellite receiver with your Polaris Remote Control. Follow these steps to program the Polaris remote control to control your TV.

Note: Please refer to “Device Table” on page 11 to find out which devices you can program onto each device key.

1. Turn on the device you wish to control.
2. Press the **TV** key. The key blinks once. Then press and hold the **SETUP** key until the **TV** key blinks twice.
A diagram of a remote control with two curved arrows pointing towards the TV key. The left arrow is labeled 'TV' and the right arrow is labeled 'SAT'. The TV key is the central button at the top of the remote.
3. Use the “Manufacturer’s TV (or DVD/VCR TV Combination Device) Codes (Codes du fabricant)” on page 36 to locate the type of device and its brand name. Enter the first four-digit code for that device and brand. If the code

is valid, the device key blinks twice. If the key emits a single, long blink, then the code entry was invalid. Try steps 2 and 3 again, using the same code.

4.  Aim the remote control at the device you want to control. Press the key for that device once (either **TV** or **SAT**). If the device turns off, then you have successfully programmed your remote control for that device. If the device does not turn off, then repeat steps 2 through 4 using the codes listed for your TV brand until you have found the code for that device.
5. Repeat steps 1 through 4 above for the next device you want to control (either your television or satellite receiver).

OPERATE YOUR SATELLITE RECEIVER

Your Polaris Remote Control is now ready to operate your satellite receiver. You can use your remote control to turn your satellite receiver on and off, and to change the channel.

1.  To turn on your satellite receiver, press **SAT**. The **SAT** key blinks once and your satellite receiver turns on. To turn off your satellite receiver, press **SAT**. The **SAT** key blinks once and your satellite receiver turns off.

To change the channel, do the following:

1. Use the remote control's **CH+** and **CH-** keys to navigate to the channel you wish to view, one channel at a time.

OPERATE YOUR TELEVISION

To turn on your television, press **TV**. The **TV** key blinks once and your television turns on. To turn off your television, press **TV**. The **TV** key blinks once and your television turns off.

To Control your television:

1. Use the **VOL** key to raise or lower the volume of your television. To raise the volume, press **VOL+**. To lower the volume, press **VOL-**.

Note: See “Key Charts” on page 9 to get an overview of the functions of all the keys available on your Polaris Remote Control.

TURN ON BACKLIGHTING

Your Polaris Remote Control has a feature that allows backlighting of all its keys. When backlighting is turned on, the keys to your remote control are lit when you press them. To enable backlighting, do the following:

1. Quickly press **SETUP** twice. All the keys to your remote control are lit for a few seconds, allowing you to easily see them in low-light conditions. After you have activated backlighting, any time you press a key, the selected device key (either **TV** or **SAT**) blinks once. After the device key blinks, all the keys on your Polaris Remote Control are lit for a few seconds.

To disable backlighting, do the following:

1. Quickly press **SETUP** twice. Keys no longer are lit when you press them. The selected device key (either **TV** or **SAT**) still blinks once when you press a key.

Congratulations! You can now use your Polaris Remote Control to operate the most essential functions of your home entertainment system. To learn more about this remote control's convenient features, please refer to the rest of this User Guide, starting with the section, "Features and Functions" on page 8.

INTRODUCTION

The Polaris Remote Control by Universal Electronics is our latest generation universal remote control. It provides easy and comfortable access to the remote-control functions you'll need to use most often. Moreover, it's packed with advanced, friendly features such as:

- Preprogrammed control to operate the satellite receiver supplied by Star Choice
- Simple, two-button operation
- No power key
- Essential keys embossed for easy identification and operation
- Backlit keys
- Code Search to help program control of older or discontinued components

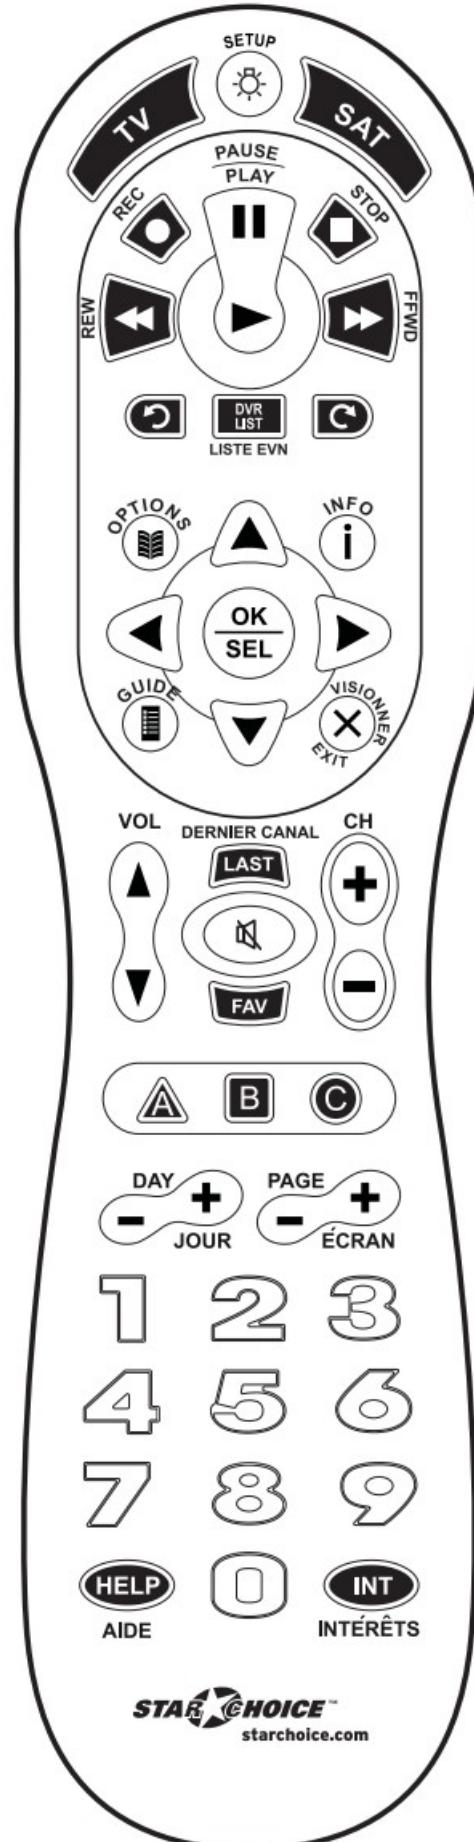

Before using the product, you need to install the enclosed batteries and also perform some programming to operate the specific home entertainment devices you wish to control.

Please follow the instructions detailed in this manual to set up the unit and then start enjoying your new remote control and cable service.

FEATURES AND FUNCTIONS

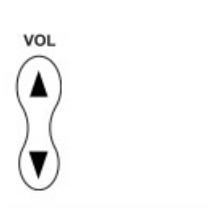

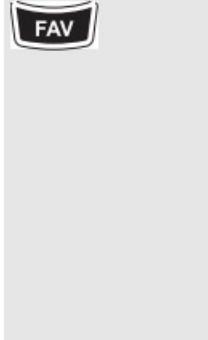

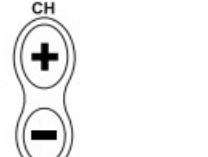

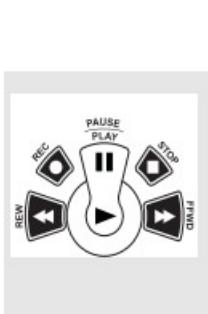

Use the illustration below to locate features on the Polaris Remote Control and then study the Key Charts (on the next three pages) to learn how they function.

To find out what type of devices can be controlled by each device key after programming, see "Device Table" on page 11.

Key Charts

Key	Function
	Use SETUP for all programming sequences. Quickly press SETUP twice to enable backlighting of all the keys on your Polaris Remote Control. After backlighting has been enabled, quickly press SETUP twice to disable backlighting.
	To turn on your television or satellite receiver, press TV or SAT once. Each device key has an embedded LED (red light) that blinks upon selection and indicates the remote control is working and (after programming) is sending signals. When backlighting is enabled, all the keys on your remote control are lit when you press any key.
	Press GUIDE to display the program guide.
	Press OPTIONS once to display the Options menu.
	Press INFO to display the current channel and program information.
	In Guide mode, press DAY+ (or DAY-) to move a day forward (or back) on your satellite receiver's program guide (applies only to receivers with picture in guide).
	Press the navigator keys to move the cursor in the program guide and menu screens and to navigate within the interactive service. Press OK/SELECT to select the highlighted program in Guide mode or Menu option.
	Press PAGE+ (or PAGE-) to page up (or page down) through menu screens and the program guide.
	Press EXIT to exit out of your satellite receiver's menu and guide.

Key	Function
	Use A, B, or C to access additional satellite features (see your satellite receiver's manual).
	Press VOL+ (or VOL-) to raise (or lower) the TV volume.
	In Guide mode, press FAV to cycle through your favorite channels stored in your satellite receiver (applies only to receivers with picture in guide only). For receivers without picture in guide, pressing FAV displays the menu to "Choose Day" to advance the guide to a future day of the week.
	Use CH+ (or CH-) to select the next higher (or lower) channel.
	Press MUTE once to turn the sound off or on.
	Press LAST once to recall the last channel.
	Press INT to display the Interests menu options.
	Press SKIP BACK once to instantly shuttle a recorded program back by 10 seconds (applies only to satellite receivers equipped with a digital video recorder, DVR530HD).
	Press SKIP FORWARD to instantly shuttle a recorded program forward by 30 seconds (applies only to satellite receivers equipped with a digital video recorder, DVR530HD).
	Press DVR LIST once to display a list of recorded programs (applies only to satellite receivers equipped with a digital video recorder, DVR530HD).
	Use REC , REW , PLAY , FFWD , STOP , and PAUSE to control receivers with DVR feature, or to control VCR or DVD/TV combination devices. To record in the VCR mode, press REC twice.

Key	Function
1 2 3 4 5 6 7 8 9 0	Use the keypad numbers (1-9, and 0) to directly tune channels (e.g., 09).
	Press HELP to display help menus.

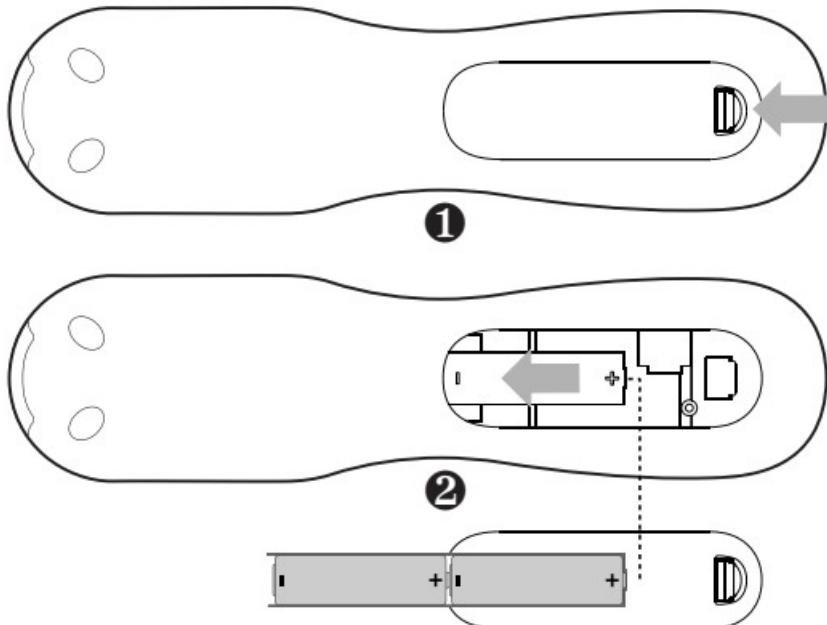

Device Table

NOTE: Please refer to the table below when performing the instructions in “Programming TV or TV/VCR or DVD Combination Device Control” on page 12.

After programming, the Polaris Remote Control can control the following types of devices:

Device Key	Controls these types of devices
	Satellite receiver The SAT key turns your satellite receiver on and off.
	Television The TV key turns your television on and off.

INSTALLING BATTERIES

1. On the back of the remote control, push the tab and lift off the battery cover.
2. Locate the two (2) enclosed AA batteries. Match the + and - marks with those in the battery case, then insert them. Align the

cover's keys with the case's holes and press the cover back into place. The tab should click when the cover is locked.

3. Test the remote control by pressing any mode key (e.g., **TV**). If the batteries are inserted correctly, the LED (red light) blinks once.

NOTE: When batteries need replacement, the remote control ceases to operate. Replace the batteries and the unit is restored to its full functionality, complete with your favorite settings.

PROGRAMMING TV OR TV/VCR OR DVD COMBINATION DEVICE CONTROL

The Polaris Remote Control is preprogrammed to operate the satellite receiver provided by Star Choice, and an RCA TV. To control a TV (or VCR/DVD TV combination device other than RCA, perform the following steps; otherwise skip this section.

1. Turn on the TV.

NOTE: Please read steps 2 through 4 completely before proceeding. Highlight or write down the codes of the TV you wish to program before moving on to step 2.

2. On the remote control, press a device key once (i.e., **TV** or **SAT**); it blinks once. Then press and hold **SETUP** until the selected mode key blinks twice.

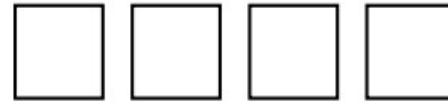

3. Use the "Manufacturer's TV (or DVD/VCR TV Combination Device) Codes (Codes du fabricant)" starting on page 36 to locate the TV brand name and then enter the first four-digit code for your TV. If performed correctly, the selected mode key blinks twice.

NOTE: If the selected mode key emits a long blink, the entry is invalid. Repeat steps 2 through 3 and try entering the same code again.

4. Aim the remote control at the device (either TV or SAT) and press the key for that device once. The device should turn off. If it does not, repeat steps 2 through 3, trying each code for your brand until you find one that works. If it still does not respond, try searching for the code (see "Searching for Your Code" on page 13).

5. For future reference, write down each working device code in the spaces provided on the following page.

TV Code

Device Type: _____

SEARCHING FOR YOUR CODE

If your home entertainment device does not respond to the Polaris Remote Control after trying all of the codes listed for your brand, or if your brand is not listed at all, try searching for your code.

To search for a code for your TV:

1. Turn on your TV.
2. On the remote control, press **TV** once; it blinks once. Then press and hold **SETUP** until the **TV** key blinks twice.
A curved arrow pointing right with the word "TV" inside.
3. Enter **9 9 1**. The **TV** key blinks twice.
Three vertical numbers: 9, 9, 1.

4. Aim the remote control at the TV and press **TV** once.
A curved arrow pointing right with the word "TV" inside.

5. Continually press and release **CH+** until the TV turns off. Stop when the TV turns off.
A circular button with "CH" above a plus sign.

NOTE: In the search mode, the remote control sends IR codes from its library to the selected device, starting with the most popular code first.

6. If the TV does not turn back on, slowly press **CH-** until the TV turns on.
A circular button with a minus sign inside.

7. Press **SETUP** once to lock in the code. The **TV** key blinks twice.
A circular button with a sun-like symbol inside.

CHECKING THE CODES

If you have set up the Polaris Remote Control by searching for your device code (on the previous page), you may need to find out which four-digit code is operating your equipment. To find out which code is operating your TV:

1. On the remote control, press **TV** once; it blinks once. Then press and hold **SETUP** until the **TV** key blinks twice.

2. Enter **9 9 0**. The **TV** key blinks twice.

3. To view the code for the first digit, press **1** once. Count the number of times the **TV** key blinks (e.g., 3 blinks = 3) and write down the number in the leftmost TV Code box on page 13.

NOTE: If a code digit is 0, the selected mode key does not blink.

4. Repeat step 3 three more times for the remaining digits. Use **2** for the second digit, **3** for the third digit, and **4** for the fourth digit. Finish writing down the code in the TV Code boxes on page 13.

TROUBLESHOOTING

PROBLEM: Device key does not blink when you press a key.

SOLUTION: Replace the batteries with two (2) new AA alkaline batteries (see “Installing Batteries” on page 11).

PROBLEM: Device key blinks when you press a key, but home entertainment device does not respond.

SOLUTION: Make sure you are aiming the remote control at your home entertainment device and that you are within 15 feet of the device you are trying to control.

PROBLEM: The remote control does not control home entertainment devices or commands are not performing properly.

SOLUTION: Try all listed codes for the device brand being set up. Make sure all devices can be operated with an infrared remote control.

PROBLEM: Tried Search Method and still could not find a working code.

SOLUTION: Try the Search Method again after clearing out the device key as follows:

- a. Press and hold **SETUP** until device key blinks twice.
- b. Enter **9 9 2**.
- c. Press and release the device key to be cleared twice.

FCC NOTICE

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

This equipment has been verified to comply with the limits for a class B computing device, pursuant to FCC Rules. In order to maintain compliance with FCC regulations, shielded cables must be used with this equipment. Operation with non-approved equipment or unshielded cables is likely to result in interference to radio and TV reception. The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.

ADDITIONAL INFORMATION

This product does not have any user-serviceable parts. Opening the case, except for the battery cover, may cause permanent damage to your Polaris Remote Control.
